 From: Patrick Murray
 To: Andrew Mead

I finally had the time to peruse the first issue of the newsletter under your control and I direct your attention to the first paragraph in column three on page two.

Can you say, "breach of contract?" I know you can. You (and every sitting member of the Executive Board) need to retain counsel. As soon as possible. You *will* be required to defend your position in a court of law of competent jurisdiction. This is no joke, Andy. You and *every* member of the sitting Executive Board. And the Bull City Dart League. Your motion offends my very being - I have done more for your precious league in a season than you have done since the fall of '92 when the league was first concocted. And you show your appreciation for that work in this manner. Never have you contacted me about this; never have you done anything more than engage in hypocrisy and witch hunts regarding the current situation in the league.

I can't honestly say that I did not see this coming - pity that I actually thought of you as a more decent person than you have turned out to be.

Here I was, prepared to continue the BCDL site with input from the new statistician, but if we can't come to an equitable solution to this present situation, come 15 July, (a) a breach of contract lawsuit will be filed against the BCDL and the members of the EB and (2) the new NC Darts: BCDL site will have nothing more than the copy of said lawsuit.

You sure have a strange way of growing your dart league. Best of luck to you and your league.

BTW, this has only been sent you and cc'd to me. I expect to hear from you RSN - the rest of the league and the EB will receive a copy of this next Monday if you choose to hold your present course. Eric Paradis (lacking email) will learn of this when a Sheriff serves the paperwork.

I will mass-mail the rest of the EB and the league early Monday morning before I leave for work, absent a resolution to this pitiful turn of events.
